

# 'Academic Integrity In The Hybrid World' course by Tricia Bertram Gallant

## NOTES

### PRACTICAL ACTIVITIES

- **Analyse your syllabus:** “how to learn the most you can” instead of “how to get an A in this class”.
- **Replace one assessment** that is on the surface, in favour of a deeper level assessment.
- **Co-develop with your students** a Statement of Values or Code of Ethics for the class.

### KEY MESSAGES

- Students are human beings who need help to act with integrity.
- Students want to learn – remind them.
- Co-create with the students.

### YOUR NOTES
